Unit 3 – Come to my house

To do these tasks you need to use the Internet website called **MapsDirect**.

On paper, write instructions for a friend to come to your house from the school. If you chose a feature such as a swimming pool or recreation ground write instructions for a friend to get there from the school.

- 1 Trace the route on your printed map with your finger.
- 2 Give each instruction a number. Start with 1. At the school gate turn right/turn left/go straight on.
- 3 Draw a map to help your friend find the way. Show features your friend will pass such as shops, a post box or traffic lights.
