

Investigating Our Local Area

Unit 6 – Links to other places

To do these tasks you need to use the Internet website called **Get-a-map**

- 1 Type in the name of your town or village and click on *Go*.
- 2 Click on the circles of the snake, starting with the biggest, until you can see a map showing where you live and three or four places you could go to for shopping or leisure. Write down the names of the places.
- 3 Choose one of the places. Find a map showing the place you have chosen and where you live.
- 4 What roads could you go on to get there?
- 5 Is there a railway linking the two?
- 6 Would you go by train, car or bus?
- 7 On paper, draw a map to show the route you have chosen starting with the town or village where you live and finishing at the chosen place.
- 8 Add any places you would go through, or features you would pass on the way, which would help someone follow your route.
